

Fellowship Opportunities

The Center for Civic Leadership recruits and offers intensive advising for a range of scholarship and fellowship opportunities for graduate study, leadership programs, and international travel and research. The following fellowships and scholarships require internal applications and nominations by a Rice Faculty Committee for national competition or internal funding.

Through fellowships advising, we seek to build upon academic and leadership experiences to identify undergraduate and post-baccalaureate options that best meet the future goals of our students. We have arranged a series of workshops on grant writing and interviewing, one-on-one advising, and review of application drafts to help students craft and submit competitive applications. We encourage interested students to contact the CCL (ccl@rice.edu) to learn more.
